## Star Sound Audio Visual

re: Peter Star

To whom it may concern:

I am writing this letter to recommend the Star Sound Audio Visual Company as an outstanding installation and supply company. The company installed all of the audio visual equipment in our new 4.5 million dollar church. The planning phase of the project required hands on involvement by Peter Star. He was thorough and extremely professional during the planning phase with our team.

The procurement of the state of the art equipment that was installed was timely and cost effective. The installation was done by his team. They installed the equipment on time and worked well with the other contractors and subcontractors on the job. The equipment was adequately tested and tuned before he released it to us. We are extremely happy with the performance of the system and the integration of its elements with our needs.

I am pleased to recommend the Star Sound Group to any business that requires state of the art audio visual equipment. The Star Sound portfolio is extensive. If you have any questions, please feel free to contact me.
